**Dear Construction & Industrial  
Waste Generators,**

**We are pleased to announce the Grand Opening of our Transfer Station/Material Recovery Facility, Forest Island Recycling, Inc., located in Hamtramck. Forest Island Recycling became a fully licensed Type A Transfer Station through the Michigan Department of Environmental Quality on October 27, 2006. Not only can we accept non-hazardous solid waste, we are also capable of marketing recyclable materials. At this time we would like to extend an offer to your company to become one of our valued customers! For more information, a tip rate, or recyclable material marketing please do not hesitate to give us a call! Additionally, tours of our facility are available to anyone who would like to check it out!**

**Your support would be greatly appreciated and we look forward to hearing from you!**

**Thank you,**

**Tony Joseph  
Director of Marketing & Business Development**
